

Build capacity  
Learn new skills  
Create connections

- Sick of supports that feel more like babysitting than capacity building?
- Want to try something different and learn new skills?
- Want to be part of a small team and feel connected?

**START UP MECHANICAL CLUB**  
**could be the fit for you!**

### Our program:

- ✓ provides highly-skilled, experienced, qualified staff (support staff and head mechanic)
- ✓ caters to all skills levels; beginner, intermediate and advanced
- ✓ creates a stimulating and fun environment that is inclusive and encouraging
- ✓ improves individual skills and basic automotive knowledge, while promoting learning and trying new tasks
- ✓ provides a safe space that anyone can grow and develop in.

If you're interested in automotive, billy karts, bikes, buggies, small motors, paint and stenciling, how things work, servicing equipment, rebuilding motors, using tools, workshop safety and passion projects, then Start Up Mechanical Club might be the program for you.

Programs for 18yo will run during school terms. Younger mechanics (10-17yo) holiday programs will also be on offer.

To register your interest in our first 10 week program commencing in October 2025, please contact Tara or Greg via email.
